

SDG 2 - END HUNGER, ACHIEVE FOOD SECURITY AND IMPROVED NUTRITION AND PROMOTE SUSTAINABLE AGRICULTURE

INTERNAL ACTIONS

- promote alimentation programmes for employees and throughout the supply chain that include healthy and nutritious foods;
- reduce the environmental impact of its activities to prevent environmental disasters that can affect the nutrition of the population;
- in the case of companies in the food sector, support the spread of sustainable agricultural practices among its suppliers, specifying for each product all the nutritional information of interest to the consumer;
- pharmaceutical, food and technology firms can create products and services to combat malnutrition;
- invest in innovation and technology to facilitate access to food in developing countries (e.g., machines that make production processes more efficient and sustainable);
- integrate the principles of the *UN Guiding Principles on Business and Human Rights* in order to avoid negative impacts on the global population's human rights, especially regarding the right to food;
- promote local development in the countries of operation, inserting local farmers and companies into the supply chain, improving irrigation and production systems, and providing food assistance to the local community;
- train employees and suppliers about sustainable production and consumption;
- reduce food waste.

EXTERNAL ACTIONS

- support food banks and NGOs through donations, that are working to reduce hunger or promoting sustainable agriculture;
- contribute in the event of disasters or natural catastrophes;
- work with the *United Nations World Food Programme* or the *FAO*;
- Promoting voluntary or philanthropical programmes focused on the fight against hunger and malnutrition or on the management of food crises;
- set advertising and marketing campaigns in motion to raise awareness about issues related to hunger and malnutrition;
- participate in development cooperation projects, focused on reducing hunger and spreading sustainable agriculture;
- establish public-private partnerships with NGOs, universities, governments, local authorities and other companies to carry out projects that promote the reduction of hunger and local agricultural development.
