

**The X Annual Local Networks Forum**  
**12:00 – 17:00, June 15<sup>th</sup>, 2012**  
**El Pardo II**

**OVERVIEW**

The Annual Local Network Forum (ALNF), as a vital part of the Global Compact's governance framework, is the primary occasion for Local Networks from around the world to convene, share experiences, learn from each other and to network. This year's ALNF will feature an overview of Global Compact networks and their role in the development of the initiative in the preceding year. The Forum will also have a forward-looking perspective of network differentiation with the introduction of "Sustainability Hubs". Other agenda items include new proposals by the governance and network funding sub-working groups, as well as discussions on the unique role of networks in facilitating collective action and policy dialogues. There will further be brief discussions to schedule regional meetings to be held later in the year. *By invitation only.*
