

Ensure Universal Access to Modern Energy Services to Achieve 'Sustainable Energy for All' 2:00 PM, 16 June 2012

Overview

In line with the Secretary-General's Sustainable Energy for All initiative, participants will discuss private sector engagement and public policy measures that will help achieve universal energy access for all by 2030. Presentations and a panel discussion will highlight the innovative resources, technologies, financing, and business models available to achieve energy access for all as well as the need for public-private partnerships and policy frameworks.

Programme

Keynote presentation: *Universal Access to Energy – What does it take? What is the role of the private sector?*
Panel debate: *Perspectives on achievements, challenges, innovations, partnerships and regulatory frameworks.*

Moderator:

- Mr. Olav Kjørven, UN Assistant Secretary-General & Director of UNDP's Bureau of Development Policy

Speakers:
